**SUBJECT: INVITATION TO LEARN GERMAN FOR GLOBAL OPPORTUNITIES**

Look!

The Government of Kenya has committed to equip about 50,000 citizens to join the German labour market per year. The State Department for Diaspora Affairs in partnership with HTV Africa, Youth Fund and Uwezo Fund have picked Meru University to be the centre of this engagement in the region, with all TVET institutions in the region collaborating with the partners to ensure that their trainees get funded to study German language and upon completion benefit from available job placements in Germany and other European labour markets.

It's on this premise that Kaelo TVC invites interested trainees to register for this exciting opportunity. Learning will be largely online and is structured into three levels: A1 (Beginner), A2 (Elementary) and B1 (Intermediate), each taking two months. Hurry up to show interest by registering in the DP Academics office before 18<sup>th</sup> February 2026.

Other details of the programme shall be given after registration.

Don't miss this opportunity!!!
